BEDROOM COLLECTION 2022

We are becoming more accessible with our ever-increasing production capacity and our sales points that cross the borders of the country.

As Saloni Furniture, we continue on our way with firm and confident steps, with the principle of quality production that we have never compromised for 22 years, a sales policy based on trust and the high efforts of each of our employees. We move forward with a great team that can fully perform their art at every stage of our furniture production. We change the known perception of furniture production by including art and artist in our technical operations in our

production processes. In this way, we believe that our brand adds value to the sector. Over 22 years, with over 750 employees and with thousands of furniture we produce we are trying to set our customer satisfaction sustainable and to produce functional and quality products with high design value. We become more accessible with our ever-increasing production capacity and our sales points that cross the borders of the country...

WE ARE IN 72

WHY IS OUR **FURNITURE** PREFERRED BY EVERYONE?

As Saloni Furniture, we have not compromised on the principle of quality production for twenty-two years. With a sales policy based on trust and the high efforts of our employees, we continue on our way with firm and confident steps. We increase our production capacity day by day and we become more accessible with our selling points that cross the borders of the country.

We include art in our technical operations and production processes, and we work with a large team of the best artists at every stage. In this way, we change the usual

perception of furniture production and we believe that our brand adds value to the sector.

We continue our journey with the vision of being one of the top five brands of Turkey in our field in five years. We work with the mission of producing functional and quality products with high design value and making these products accessible in six continents. We continue to maintain the satisfaction we have gained with our more than four hundred employees and hundreds of thousands of furniture we produce and to beautify your living spaces.

RESULT OF AN INTENSE AND HARD WORK

We use high-protective and double-layer cardboard packaging for the transportation, packaging and stocking of our products, which are shipped in disassembled form. We protect our furniture corners with L-Kraft, and we support the spaces left in the box with styrofoam.

saloni.com.tr

FABRICS DESIGNED WITH THE LATEST TECH MACHINES

Modern, classic, avant-garde or baroque; multi-coloured, single-coloured or patterned... First class materials are preferred in all fabrics, no matter what kind of seating you choose here at Saloni.

The drawings of the fabric patterns and the optimization process required for the fabric to be integrated into the furniture in the best way, are done entirely with computers.

As Saloni, the sewing machines of our furniture fabrics consist of machines with the latest technology, which are constantly renewed. In sewing materials such as thread, zipper, tape, we procure our products from world-renowned quality suppliers.

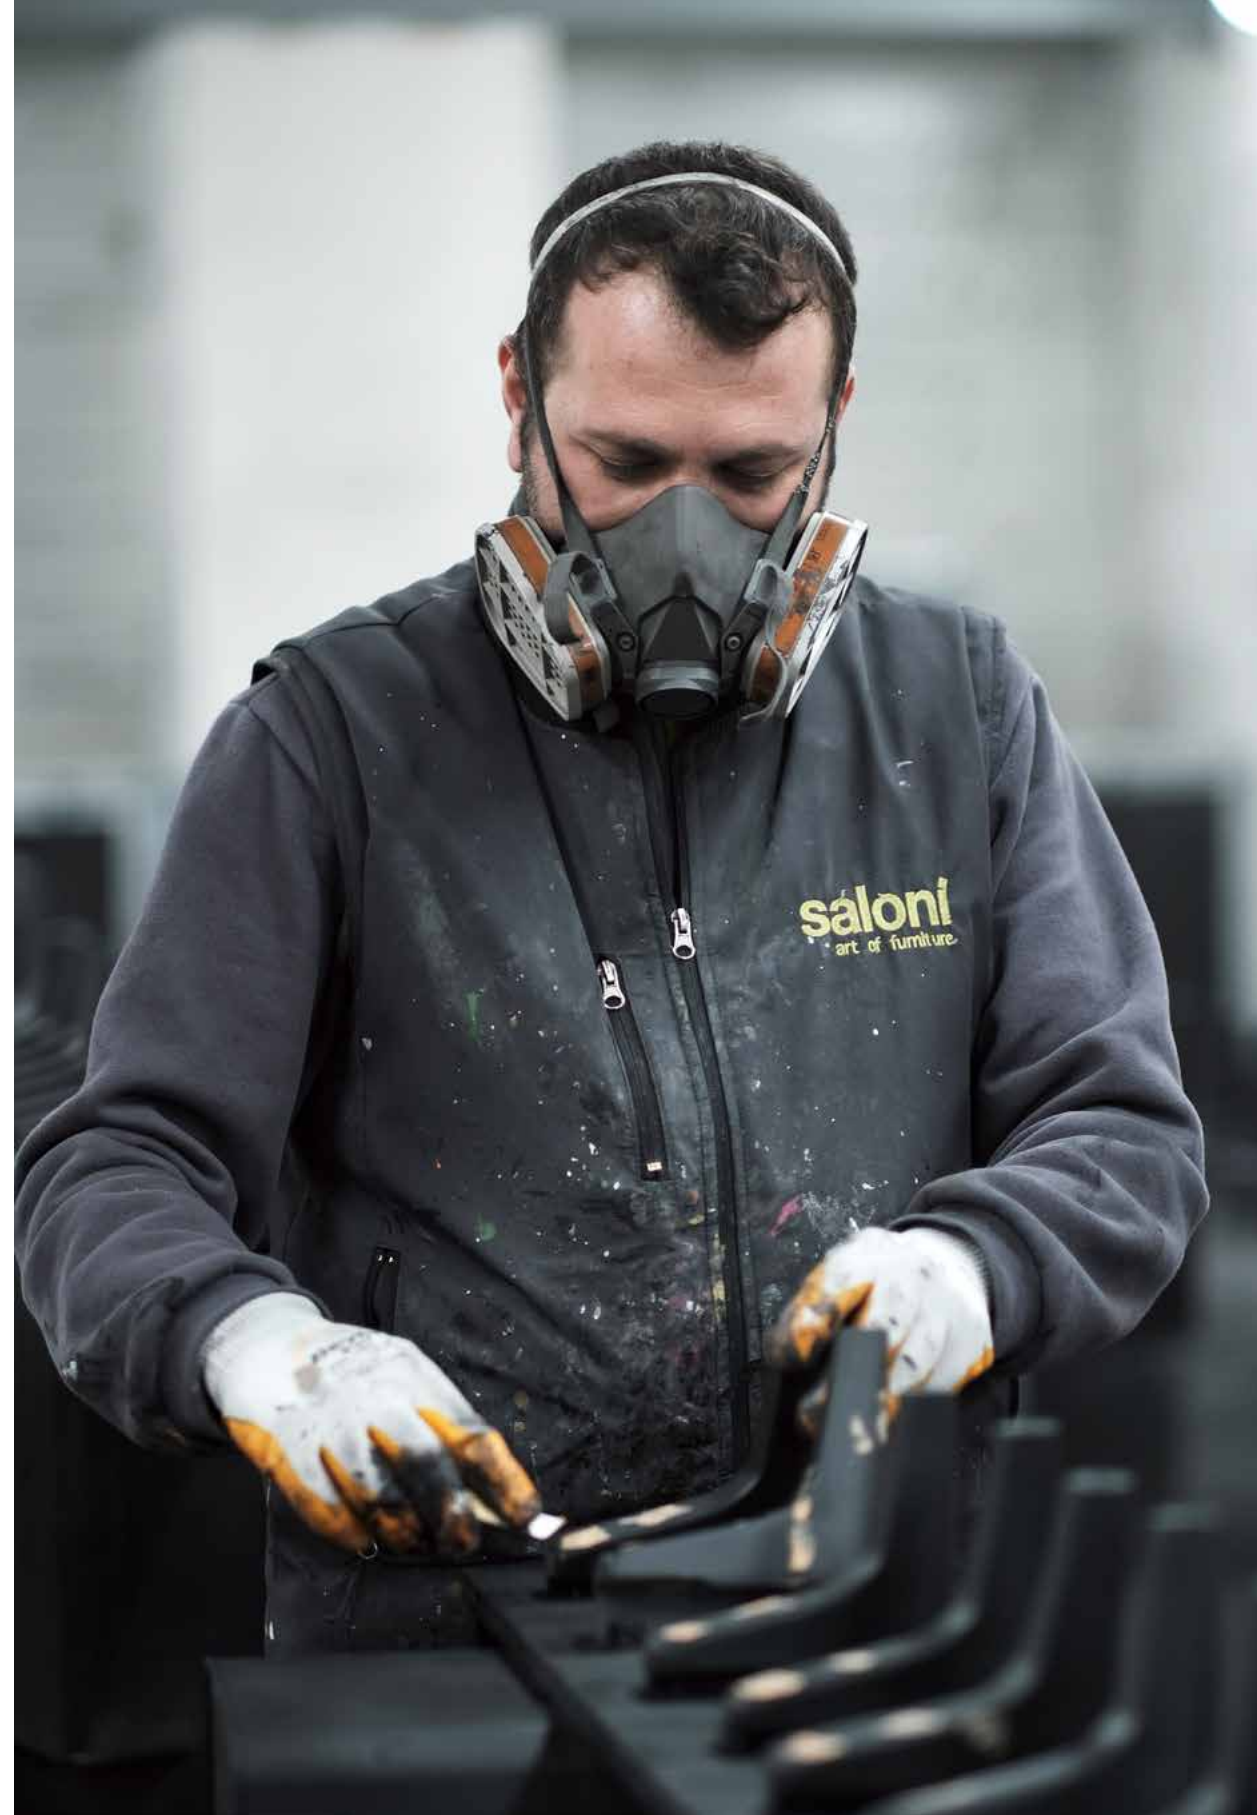

All of the fabrics that are cut with a precision CNC cutting machine under computer control are subjected to quality control just before cutting.

A MASTER STORY: CRAFTS- MANSHIP

In the upholstery section of our furniture, handwork, a professional perspective and mastery are at the forefront. Good upholstery of the sofa with fabrics; regularity of piping, seams, buttons, etc. If there are accessories such as, it must be reliably sewn. The majority of our furniture masters are experienced masters who have been working for Saloni for a long time, have assimilated Saloni's point of view, and are always open to innovation and difference.

Polyurethane-based, non-yellowing, impact and UV-resistant paints with high physical and chemical resistance are used in saloni furniture. Metal legs are painted with healthy electrostatic furnace paint instead of solvent.

As Saloni, we design our own products with our own design team. We are working to produce what is not produced, to eliminate the deficiencies in the furniture industry, and to lead

the trends with our brand new, different and unique designs. Because it is our priority to offer comfort, durability and design all together.

We use high-protective and double-layered BC-KSK Doppel cardboard packages for the transportation, packaging and stocking of our products, which are delivered as disassembled

during shipment, and we support the 20 mm empty spaces in the box with styrofoam. In addition, we use L-Kraft for our furniture corners, keeping its protection at the maximum level.

ALL OF OUR STORES ARE LEADING THE INDUSTRY BASED ON THE FUNDAMENTAL PRINCIPLES THAT WE HAVE SET SINCE THE DAY OF OUR FOUNDATION. WE ACT WITH HIGH ENVIRONMENTAL SENSITIVITY IN ALL OF OUR OPERATIONS, BY OFFERING TO OUR CUSTOMERS DURABLE, LONG LASTING AND HIGH DESIGN VALUE PRODUCTS.

Saloni cares and invests in design. Saloni products are models with high design value and strong aesthetics. Ergonomic details are taken into account in all Saloni models and comfort is at the highest level. We lead the industry in producing innovative

and functional products with the engineering techniques we use in the design and production stages. It is one of our basic principles to present our high quality in design, materials and workmanship to our customers at affordable prices.

CUSTOMIZE
YOUR SPACE

ALFA
CABINETS

Alfa

Recreate your home's dressing area with Alfa's innovative approach.

Would you like to learn why Alfa Cabinets attracts such great attention? The answer is very simple, because it was designed just to meet the needs and wishes of you and your family. This structure, every detail of which has been designed delicately and considering your needs, challenges all other cabinets with its shelf system, door structure, body, interior and exterior design.

Did you know that you can design your Alfa cabinet every day according to your own wishes and needs, thanks to its newly designed modules that serve different purposes?

Have you ever thought about the most important features you want in a cabinet? We thought about you! We are sure that you, like everyone else, complain about the narrowness of your closet, the uselessness of the design, and the inability to fit your belongings. Thanks to Alpha, you can bring a single solution to all your problems!

The biggest reason why Alfa is different from other cabinets is that the use of cabinets can be rearranged according to needs. Unlike the cabinets we have designed and prepared for you so far, we invite you to work with Alfa! It is entirely up to you to make more room by changing a single module, offering different usage areas to family members, and changing and redesigning them whenever you want!

- 01 **HANGER:** Using elastomer in our hangers prevents them from scratching and making noises.
- 02 **PROFILE:** 2mm Aluminum profiles with inox coating resists color change, bending and scratching.
- 03 **CABINET:** As our Cabinets are delivered in disassembled conditions it is very important to implant Rafix and Minifix Assembly solutions to make the process simplified and at the same time make sure that finished product is solid to last for a long period of time.

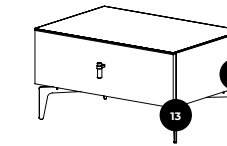

- 04 **TEMPERED GLASS:** 5 times more durable than an ordinary glass. When broken falls into small pieces to prevent serious injuries.
- 05 **LED:** Homogeneous distribution of light throughout our wardrobes are managed by the control cards. UL Certified.
- 06 **HINGES:** Soft closing hinges from HAFELE installed on the cabinet doors with dowels. 5 pieces of hinge holding each door to handle the weight and provide smooth operation.

- 07 **PAINTING:** Polyurethane-based paints with high physical and chemical resistance provides great UV resistance.
- 08 **RAILS:** German manufactured, Self-retracting, full extension telescopic Hettich Rails with ISO certification.

- 09 **BED BASE:** Foldable plinth system being compact and stable at the same time. Locked pistons providing power of 1200 Newtons installed with steel dowels. Unified base with approximately 1m³ of storage.
- 10 **FABRICS:** High grade polyester fabrics for long lasting and easy maintenance.
- 11 **RAILS:** German manufactured, Self-retracting, full extension telescopic Hettich Rails with ISO certification.

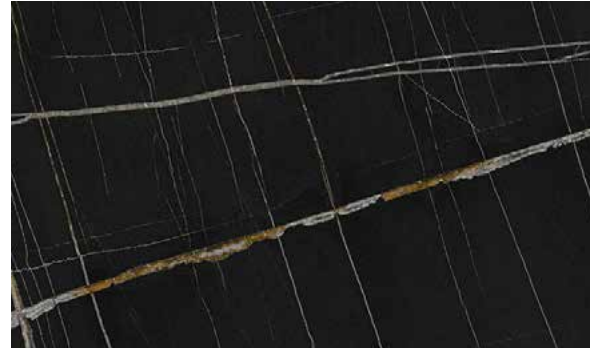

- 12 **ELECTROSTATIC PAINTING:** Solvent-free, Healthy electrostatic oven paint.
- 13 **METAL LEGS:** Laser cut of a 10mm steel plate. Painted with electrostatic oven procedures. Attached.
